

A LEVEL RESULTS 2022

Over half of all grades (54%) awarded are A*- A, which is significantly higher than 2019 results, the last year in which students sat A Level examinations in the usual way. In addition, three quarters (75.3%) of grades are A*- B.

Pupils will now take up places at some of the most prestigious universities in the UK and across the globe. Examples include Medicine at Edinburgh, Mechanical Engineering at Imperial College London, Liberal Arts at both New York University and the University of Leeds, and History of Art at University of London's School of Oriental and African Studies.

These courses show the breadth of interests of the girls at MSJ and particularly demonstrate the school's commitment to STEAM (Science, Technology, Engineering, Arts, and Maths). 100% of candidates achieved A*-B in Art, Chemistry, Drama, Geography, Music, and Product Design.

GCSE RESULTS 2022

In Geography, Business, and Design & Technology, half of all grades achieved are 9s; in Art, Computing, French and Economics over a third of grades are 9s; and in Mathematics and Physics a quarter of all grades are 9s.

STEAM subjects are particularly strong this year. 100% of awards in Design and Technology are at grades 9 to 7; 67% in Biology and Computing, 66% in Physics, 65% in Mathematics, and 63% in Chemistry. Pupils also performed very well in Modern Foreign Languages and Humanities. Grades 9-7 have been achieved for 78% of French entries, and for 75% of both Spanish and German entries. 93% of grades awarded for Geography are 9-7, and 73% for History.

Overall, 60% of all grades awarded are the top marks of 9 to 7. This compares favourably to 2019 (when pupils last sat public examinations in the usual way) where 54% of grades were 9-7.
